Profile

Full-stack TypeScript developer with a backend focus. I build REST and real-time APIs with NestJS and PostgreSQL, ship them with Docker, and build web and cross-platform apps with React, Next.js and React Native. Master's student in Computer Science at Warsaw University of Technology and four-time HackYeah participant.

Experience

Heller Consult – *Application Engineer* **June 2025 – Present**

- Designed a report generation engine with its own transformation language and evaluator, turning database data into Excel reports
- Develop data transformation pipelines that process and migrate road infrastructure data across PostgreSQL databases
- Build internal tools and maintain the databases behind production road data platforms

Codecollider-tech – *Freelance Web Developer* **October 2025 – February 2026**

- Modernized a charity organization's React application, refactoring its UI and delivering new features
- Built and launched a multilingual website with online consultation booking, powered by TinaCMS

Heller Consult – *Software Developer Intern (two internships)* **May – July 2024, May – July 2025**

- Designed and built a desktop configuration app (React, Electron, PostgreSQL) that streamlines project setup

Skills

- **Core:** TypeScript, Node.js, NestJS, React, PostgreSQL, Docker
- **Languages:** JavaScript, Python, C++, C#, Java, SQL
- **Backend:** Express, REST, WebSockets, JWT/Passport, Crow (C++), ASP.NET
- **Frontend & mobile:** Next.js, Vue, React Native (Expo), Flutter, Ionic, TanStack Query, Zustand
- **Databases:** PostGIS, MySQL, TypeORM, Prisma
- **DevOps & tools:** Docker Compose, LXD, Nginx, Linux, Google Cloud Platform, Git, Bash
- **Spoken:** English B2, Polish C1, Ukrainian native, Russian native

Projects

- **Sportsy (Team Lead)** · *Flutter, NestJS, PostgreSQL, Socket.IO, Docker* – led an Agile team building a Flutter mobile app for sports tournaments; designed and built its NestJS backend with live game rooms
- **Collaboration platform** · *C++20, Crow, PostgreSQL, Docker* – workspace backend with boards, tasks and automation; ports-and-adapters
- **AnyMeal** · *React Native (Expo), NestJS, PostgreSQL, Python* – cross-platform iOS and Android app that recognizes food from photos
- **ParkRadar (HackYeah)** · *Ionic React, Capacitor, MapLibre* – live parking map for web, iOS and Android

Education

Warsaw University of Technology – *Master's, Computer Science* **February 2026 – Present**

Akademia Bialska im. Jana Pawła II – *Engineer, Computer Science* **October 2022 – February 2026**

I hereby consent to the processing of my personal data for recruitment purposes in accordance with Article 6(1)(a) of the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
